Output current rating assumes horizontal DIN rail or panel mounting, no cover, and no auxiliary air flow. For horizontal mounting with cover, current rating is specified from 0 to 30°C, derate 2.5% per degree 30 to 70°C. For vertical mounting with cover, current rating is derated 15% from 0 to 30°C, derate additional 2.5% per degree from 30 to 60°C.

² -5V output current is derived from +5V output using a DC-DC converter with 75% efficiency. Therefore, +5V output maximum current is derated by 1.33 x -5V output current.

³ PC mount mating plug connector Phoenix Contact type MSTB 2.5/6-G-5.08.

⁴ Power LED will pulse on and off if min. load requirement for proper regulation is not met.
